PROFESSIONAL SUMMARY

Associate Software Engineer with hands-on experience developing scalable full-stack web applications using React.js, Node.js, TypeScript, and MySQL. Skilled in building responsive frontend systems, REST APIs, deployment workflows, and client-focused business applications. Passionate about modern software engineering, performance optimization, and delivering impactful digital solutions.

EDUCATION

Bapuji Institute of Engineering and Technology	BE in Electronics and Communication CGPA: 8.19	Nov 2021 – July 2025
Sir M V PU College	Pre-University College Percentage: 89	May 2020 – June 2021
Sri Taralabalu Central School	High School Percentage: 90	Apr 2018 – May 2019

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, SQL (MySQL)
Frontend: React.js, HTML, CSS
Backend: Node.js, Express.js, REST APIs
Tools & Platforms: Git, GitHub, Hostinger, Microsoft Azure, Nodemailer, SMTP Services

ACADEMIC ACHIEVEMENTS

Runner-Up ISTE – State Level Product Marketing	July 2022
Runner-Up STM32 – Microcontrollers Institute-Level	Nov 2023
Institute Best Project Humanoid Robot	May 2025

CERTIFICATIONS

Infosys Springboard Artificial Intelligence	Aug 2023
Microsoft Microsoft Azure, AI Fundamentals	Aug 2023
NPTEL Python, Java, Data Analytics, Data Science	May 2023 – Oct 2024

EXPERIENCE

Associate Software Engineer (8 Months) Sakyaitech Solutions	Sep 2025 – Present
- Developed scalable full-stack web applications using React.js, Node.js, TypeScript, and MySQL for client-based business solutions. - Built responsive frontend interfaces and integrated REST APIs, SMTP email services, and database-driven functionalities for inquiry automation and workflow management systems. - Collaborated on deployment workflows, version control, debugging, testing, and production-ready web application maintenance using GitHub and Hostinger. - Worked on SEO optimization, frontend performance enhancement, responsive UI development, and debugging across multiple live client projects.	

INTERNSHIPS

Web Development Intern | TechCiti Technologies

Oct 2024 – Jan 2025

- Developed responsive and user-friendly web pages using HTML, CSS, and JavaScript for client-based projects.
- Improved frontend responsiveness, UI consistency, and browser compatibility across multiple devices.

Technical Intern | Bharat Electronics Limited

Sep 2024 – Oct 2024

- Gained exposure to sonar and radar systems with practical understanding of defense communication technologies.
- Learned fundamentals of electronic communication systems and real-time defense infrastructure workflows.

Cloud & Azure Intern | EakTech

Oct 2023 – Nov 2023

- Worked on Microsoft Azure cloud services with hands-on exposure to deployment and cloud management workflows.
 - Assisted in cloud-based deployment configurations and gained understanding of modern cloud infrastructure practices.
-

PROJECTS

1. Karunadu LED & Lighting – E-commerce Product Inquiry Platform

Nov 2025 – Jan 2026

Tech Stack: React.js, Node.js, TypeScript, REST APIs, SMTP (Nodemailer), GitHub, Hostinger

- Developed a full-stack e-commerce platform enabling customers to send product inquiries through automated email workflows.
- Built responsive frontend interfaces and scalable backend APIs for smooth customer interaction and inquiry handling.
- Integrated SMTP services using Nodemailer and managed deployment workflows using GitHub and Hostinger.

2. Galaxy Power Solar – Business Website with SEO Optimization

Dec 2025 – Jan 2026

Tech Stack: React.js, TypeScript, Node.js, Express.js, SMTP, SEO, Hostinger

- Designed and developed a responsive business website with modern UI components and scalable frontend architecture.
- Implemented SEO optimization strategies to improve website visibility, accessibility, and performance.
- Developed backend integrations and managed deployment workflows using Hostinger hosting infrastructure.

3. Aradhya NextGen – Corporate Website & Live Deployment

Dec 2025 – Feb 2026

Tech Stack: React.js, Node.js, Express.js, TypeScript, SMTP, GitHub, Hostinger

- Developed and deployed the official corporate website for Aradhya NextGen with responsive design architecture.
- Built scalable frontend modules, API integrations, state management workflows, and responsive UI systems to support business workflows and optimized user experience.
- Managed version control, deployment pipelines, and hosting environments using GitHub and Hostinger.

4. Unnathi CNC Industry – Full Stack Web Application for Inquiry Automation

Jan 2026 – Apr 2026

Tech Stack: React.js, Node.js, Express.js, REST APIs, TypeScript, MySQL (Hostinger), SMTP

- Built a full-stack inquiry automation platform to streamline client communication and workflow management.
- Developed scalable REST APIs, JWT-based authentication workflows, and MySQL database integrations for efficient inquiry handling and data management.
- Integrated SMTP-based automated communication workflows and responsive frontend dashboards for operational efficiency.

5. Dental Clinic Management System – Appointment Management System

Feb 2026 – Apr 2026

Tech Stack: React.js, Node.js, Express.js, TypeScript, REST APIs, MySQL (Hostinger), SMTP

- Developed a clinic management platform supporting appointment scheduling, patient management, and inquiry systems.
- Built secure REST APIs, API security workflows, and integrated MySQL databases for scalable appointment and patient record management.
- Designed responsive frontend dashboards and communication workflows to improve clinic administration efficiency.

6. Hrithik Chit – Digital Chit Fund Management Web Platform

Apr 2026 – May 2026

Tech Stack: React.js, Node.js, Express.js, TypeScript, SMTP, SEO, Hostinger

- Developed a digital chit fund management platform with scalable frontend and backend systems for business operations.
- Built responsive UI components and backend integrations to manage customer interactions and workflow automation.
- Implemented SEO optimization, communication workflows, and deployment processes using modern hosting infrastructure.
